

SPEAR DUAL

GOGGLE

MIL-PRF-32432A | STANAG 2920/4296 | ANSI Z.87 | EN166B

When creating SPEAR DUAL LENS, we took the traditional goggle format and added purpose-driven features to maximize comfort and protection. It has a SPEAR Elastic Strap with Tri-Glide™ System to adjust length and quick release key connections; it is compatible with the Wiley X ARC Rail Attachment System & the Team Wendy EXFIL® 2.0 and 3.0 rails, securing you a comfortable fit when wearing a tactical helmet; and it has a removable gasket (Facial

Cavity™ Seal) for added defense against pollutants and irritants. This, matched with its symmetrical venting system; its NVG-compatible design; and its WX Dual Lens System, consisting of a two-layer lens that separates the temperature difference from the air on the lens' inside and outside, making it nearly impossible to fog, the SPEAR is a solid and versatile addition to your arsenal of protective equipment.

STANDARD LENSES		*LIGHT TRANSMISSION VARIES +/- 3% DEPENDING ON MODEL			
	GREY	SELENITE™ POLYCARBONATE	WEIGHT: 32 GRAM	LT: 14%*	COATING: HARD COATING, ANTI FOG
